

Touch Control Cold Hot Laminating Machine

Rapid preheating

The preheating time is about 3-5 min, the glue can reach 400mm/min excellent performance, saving precious time

≈ 3 - 5 min
Molding time

400 mm/min
Molding speed

Cold/ hot mounting

Two mode of cold mounting and hot mounting can be switched constant temperature, smooth and clear, no card touch, no foam, no deformation

Board holder & paper cutter

The machine come with a detachable hidden baffle which can be put down as a cardboard, and can be used as a paper cutter when removed

Fast Preheating

Touch Shift

Own Knife

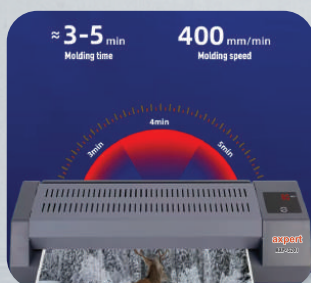

Hot and Cold Mode

Simple Operation

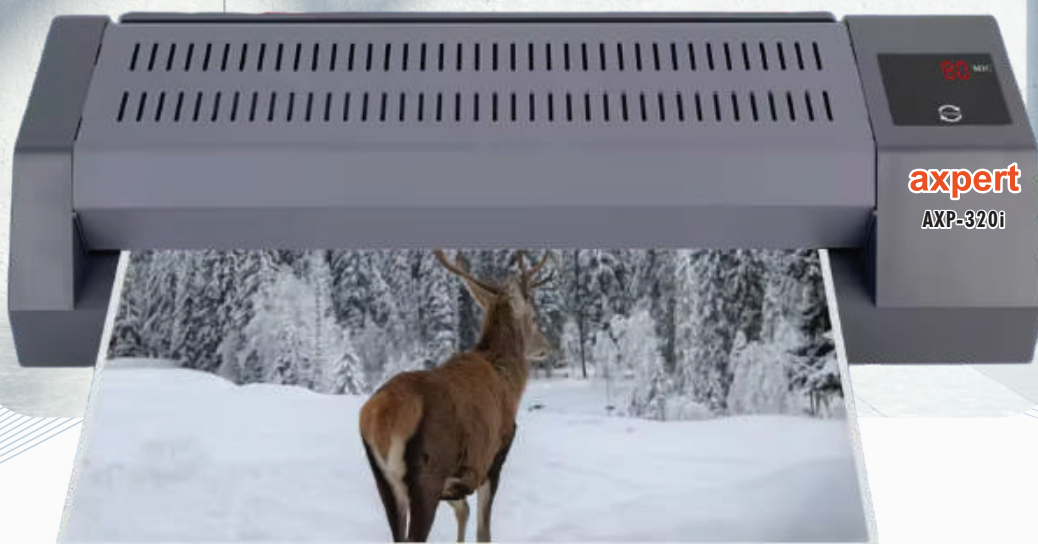

Low Noise

Cold mounting function

Hot mounting function

Product specifications

Model name : AXP-320i	Laminating mode : Hot & Cold
Power supply : 220VAC/50Hz	Pre heating time : 3-5min
Power consumption : 700W	Number of rollers : 2 Rollers
Product size : 440*150*82mm	Film specification : 55- 175mic
Weight : 2.5 kg	Max paper width : 320mm (A3)
